

THE NEWS ABOUT TOWN AND COUNTY

Bridge Washes Away.

Carrier W. H. Pardue, of Lancaster Route 3, informs The News that the Kibler bridge over lower Camp creek on his route was washed away during the heavy rains last week.

Will Need Certificates.

R. C. Burts of Rock Hill, secretary of the State Teachers' association, says that teachers should secure identification certificates from him, so they can procure reduced rates. Letters directed to Mr. Burts at Rock Hill will reach him.

Lancaster Man Pardoned.

Frank Phillips, convicted of larceny of live stock in Lancaster county in 1892, was granted a pardon by the governor Wednesday. The pardon was to restore citizenship in order that Phillips' testimony may be used.

Chaingang Moves.

The county chaingang has moved from Antioch to Primus and is now working out from that point. E. R. Jenkins, carrier on Route 8 from Primus, was in the city Saturday and said that the road from Antioch south had been opened out to 30 feet and was one of the best in the county. The recent rains, he said, had not materially effected this stretch of road.

Carload of Velvet Beans.

County Agent Howell calls attention to the fact that more Lancaster county farmers than ever before are going to plant velvet beans this year. He has orders made up for almost a carload of beans, and any farmer who wants to plant this important forage and soil building crop this year should see him this week in order to get his order in the lot. Velvet beans are a great deal cheaper than cowpeas this year, and many farmers are turning to them for this reason.

The Play Friday Night.

The play presented by the Monroe Post American Legion in Mackey opera house Friday night was witnessed by a fair sized crowd and greatly enjoyed. Inclement weather kept many away who had anticipated attending the play. The cast, composed of amateur material, was well brought out. Some of the players remained over night in the city while others decided to return to Monroe. Taking into consideration the bad weather the receipts were very satisfactory.

Farm Women's Council to Meet.

There will be a meeting of the county farm women's council Saturday afternoon, March 18, at 2 o'clock at the graded school building in Lancaster. Mrs. Anne J. Campbell, household management specialist from Winthrop college will be present to address the council. Mrs. Campbell has had years of experience in demonstration work both in this and other states, and is one of the most capable specialists in the demonstration work. She is also a very fluent speaker and has a most captivating delivery. There are many subjects that she can enlighten her hearers on besides her

special line of work, and her visit to our city promises to be one of the greatest treats we have had in several months. It is a duty that the housewife owes herself, her family, and her county to attend this meeting. On account of the bad condition of the roads over the county and very threatening weather, there was a poor representation of club women at the meeting last Saturday, so for that reason the county workers have succeeded in getting Mrs. Campbell to be with them at their meeting this week. The town women are always welcome to attend these meetings, and an announcement of a meeting is an invitation to all women to come.

Dairy Meeting Next Week.

The dairy meeting of farmers of Lancaster county announced for next Thursday has been postponed until Wednesday, March 22. This was necessary because it was impossible to get the men here for the meeting that were wanted to present the various phases of dairying to the farmers of the county. The county agent says that an especially strong list of dairy men will be in Lancaster on that day, and urges every farmer in the county who is interested in better cows and dairy work to be at the meeting in his office promptly at 11 o'clock. Representatives from the Chester creamery will also be present.

City Schools Suspend.

As a precautionary measure against the mild epidemic of grippé or influenza throughout the city, the Central school suspended work this morning and will not open again until Monday, provided there is a susceptible improvement in the situation. This step, it is said, was taken on the recommendation of the physicians of the city. Quite a number of students are out as a result of the malady. Prof. Scott has been sick and at home for a day or two but was this morning able to be up.

Caldwell With President Harding. W. F. Caldwell, of Washington, is the Associated Press correspondent with President Harding's party in Florida. Mr. Caldwell is a native of Chester and he married Miss Juanita Wylie, daughter of Mr. and Mrs. R. E. Wylie, of this city.

New Firm.

T. E. Cheatham & Co. is Lancaster's newest establishment, occupying the store room recently vacated by Hirsche's Busy Bee in the Moore block. The firm is composed of T. E. Cheatham, T. E. Doster, R. N. VanLandingham and C. R. Simmons and will make a specialty of ladies' ready-to-wear and millinery. It expects to open for business by the latter part of the week.

W. M. U. Service a Success.

The all-day service at the First Baptist church last Tuesday was a decided success. Notwithstanding the downpour of rain at the appointed hour a large number of ladies were present. The programs were short and snappy and full of interest. Much credit is due the leaders

who spent much time in preparation and for their success in getting each woman present to take some part on the program. The young peoples program was an interesting feature of the day, and full of encouragement. The attendance was excellent. About 75 attended these services. Taking it as a whole, this was the greatest day spiritually and socially in the history of the church.

Power Off Again and Again.

Owing to the fact that the electric current, with which The News runs its machinery and melts metal, has been off almost half the time for the past ten days, The News has been greatly handicapped. Every minute the linotype machine fails to run takes just that much reading matter out of the paper besides entailing a heavy loss. When the power is off and comes on again about 45 minutes is required to bring the metal to proper temperature for the operation of the machine, and while the machines and force remain idle a big loss ensues.

More Seed Here.

Congressman Stevenson has sent The News another batch of packages of vegetable seed—probably a hundred packages—which can be had at The News office for the asking.

Boys Get Uniforms.

J. B. Mackorell with several of the boys of the high school baseball team are in Charlotte this afternoon, where they went to purchase uniforms for the boys. The team has started practice and with the addition of two or three new members is showing up fine.

Only One More Day.

Persons subject to the federal income tax in South Carolina have until Wednesday night at midnight to make their returns on 1921 incomes. Returns are made by persons subject to pay the tax and by all corporations. The tax may be paid in four equal installments on March 15, June 15, September 15 and December 15.

America's Annual Record
of Fire Loss Averages
156 Theatres
Totally Destroyed.

Buildings that are erected at a cost of many thousands of dollars should be insured against fire. With this insurance should go the constant service of both the local agent and the insurance company. Ask about this agency's service and Hartford policies.

Insurance Fact—

Fire insurance companies act under the most rigid State supervision.

IRA B. JONES, JR.,
Lancaster, S. C.

The team
that brings more milk

Purina Cow Chow and Purina Calf Chow fit right in with your home-grown feeds and make them a complete feeding system.

PURINA COW CHOW—

supplies calcium, phosphates and protein that are needed in milk and are usually deficient in the average dairy ration. Purina-fed cows give every pint of milk they are capable of giving, because Cow Chow contains all the needed nutrients.

PURINA CALF CHOW—

supplies the elements needed for growth, in a cheaper form than whole milk. You can raise the best of calves and save most of your milk.

We are putting the proof in your neighbors' milk pails. Why not yours?

FERGUSON COMPANY

Wholesale and Retail

LANCASTER, S. C.

Latta Davis Walked

This don't mean that he rolled around in his rolling chair but he walked all over Main street yesterday telling his friends that he is still cleaning, pressing and dying at the same old stand.
